OVERVIEW

A. Background

Arkansas Department of Human Services, Division of County Operations, Office of Community Services (DHS) will administer the American Recovery and Reinvestment Act (ARRA) Low-Income Weatherization Assistance Program in compliance with public law 111-5. DHS will administer the American Recovery and Reinvestment Act, 2009-2012 weatherization program in compliance with the applicable law, including regulations contained in 10 CFR Part 440 (issued February 1, 2002), and other procedures applicable to this regulation as the United States Department of Energy may prescribe for the administration of financial assistance. The plan is for a three year period, fiscal year 2009 through fiscal year 2012.

DHS will monitor subgrantee performance in an effort to increase production of weatherized units. Quarterly production reports will be submitted to DOE on time.

All units weatherized using American Recovery and Reinvestment funds from DOE will comply with all requirements for a completed unit and will be reported to DOE.

The purpose of the Weatherization Assistance program is to increase energy efficiency of dwellings owned or occupied by low-income persons, reduce their total residential expenditures, and improve their health and safety. The priority population for the Weatherization Assistance Program is persons who are particularly vulnerable such as the elderly, persons with disabilities, families with children, high residential energy users, and households with high energy burden. The ARRA weatherization program was enacted to preserve and create jobs and promote economic recovery. The only health and safety measures installed with ARRA funds will be "energy-related" health and safety measures. The state ensures that it will comply with the DOE "prudent use" policy for health and safety funds.

B. General Funding

The federally appropriated ARRA funds are included in the plan for DOE approval. The DOE allocation is \$48,114,415.

C. Adjusted Average

The adjusted average of \$6,500 will be in use for the program.

D. Funds for Administrative Purposes

The state will use less than 5% for administration, and the balance up to the 5% allowable will be passed to subgrantees. Subgrantees will receive 5% for administration since all will be allocated more than \$350,000 for the program period.

E. Leveraged Resources

The local agencies will use DOE resources to leverage with the Arkansas Weatherization Program.

F. Training and Technical Assistance

The state will use the ARRA T/TA funds to provide training and technical assistance to subgrantees.

G. Application Package

The state will comply with Fed Connect and other requirements as prescribed by DOE.

The Master file has been eliminated from the plan. The state, however, will keep relevant information on file.

The state does not use funds for Low-Cost/No-Cost. The state will use the MHEA and NEAT energy audits. These plans are kept on file but are not included in this plan.

The plan is for a three year period, fiscal year 2009 through fiscal year 2012.

The source of labor is no longer required to be reported.

The Congressional Districts served by the various subgrantees are included in this plan. However, a breakdown of the percentage of funds going to the various districts is no longer required.

The production, as required by DOE, is included in this plan. There are no downsizing efforts this program period.

The potential energy savings is included in this plan.

The Training and Technical Assistance Plan and the Monitoring Plan are combined into one plan. A house may be re-weatherized if it was previously weatherized prior to September 30, 1994.

The annual application includes ARRA DOE funds. All laborers and mechanics employed by contractors and subcontractors on projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to the American Recovery and Reinvestment Act of 2009, Public Law 111.5, will be paid, wages at rates not less than those prevailing on projects of a character similar in locality as determined by the Secretary of Labor in accordance with Subchapter IV of Chapter 31 title 40, United States code.

Subgrantees use DOE funds for leveraging purposes with the Arkansas Weatherization Program. Electric base load measures are included in the NEAT/MHEA Audits.

A list of PAC members is included in this plan.

A transcript is included in this plan. The state requires subgrantees and contractors to maintain adequate liability insurance and pollution occurrence insurance.

H. Public Hearing

The state conducts a public hearing in compliance with ARRA DOE requirements. Subgrantees are selected in compliance with 10 CFR 440.14 and 10 CFR 440.15. In the event production falls substantially below the projection rate for a subgrantee as prescribed by the Office of Community Services, the Office of Community Services reserves the right to transfer all or a part of the responsibility for administration of the program from one subgrantee to another.

I. Training and Technical Assistance Plan

The Training and Technical Assistance Plan is combined with the Monitoring Plan. Training needs will be assessed through a review of monitoring reports and agency requests for training. The state has a full time Weatherization Training Coordinator who assesses training and provides training on a continuous basis. Training will be provided in all areas which will enhance performance so they match the mission of the Weatherization Program. A training center will be developed in order to provide training for subgrantee staff and crews. DHS will coordinate with the Department of Energy for provision of training weatherization staff and crews through educational institutions. Some trainings are mandatory for the Weatherization Directors and other weatherization personnel, and contractors are encouraged to attend. No certification is required prior to hire date. Prior experience is a consideration.

J. Client Education

The state provides client information and material at the time of weatherization.

K. Program Evaluation

DOE published a national evaluation of weatherization in 1993. Implementation of the new national evaluation has been suspended by the Office of Energy Efficiency and Renewable Energy (EERE). EERE has commissioned a strategic evaluation of the program to assess a variety of program structures and options for program development.

L. Grantee Program Oversight

The state will monitor each subgrantee at least two times annually and monitor at least 10% of the units and files.

M. Energy Audit Criteria

The state will use the MHEA and the NEAT energy audits.

N. Health and Safety

The Health and Safety Plan is included in the Master File and is not included in this Annual File. The plan has been amended to include DOE requirements regarding mold and mildew.

O. Vehicle Purchases

The state will allow vehicle purchases with an acquisition price of \$5,000 or more to be spread over the entire life of the vehicle and the number of homes served during that period.

P. Policy Advisory Council

The state will maintain the Policy Advisory Council instead of using a State Council.

Q. Reporting Requirements

The state will comply with the financial and program reporting requirements of ARRA DOE.

R. Reporting DOE Completed Units

The state will report all units that contain ARRA DOE funds. All units weatherized with DOE funds will comply with the DOE definition of a completed unit.

S. Financial Audits

Subgrantees may budget financial audit cost as a separate budget category.

T. Newly Legalized Aliens

The Immigration and Nationality Act made certain aliens legalized under the Immigration and Control Act of 1986 temporarily ineligible for weatherization assistance. The provisions of this law have expired. The only potential implications are those cases that were open while this law was in effect. Local agencies that are charitable and nonprofit are exempt from implementing new status verification requirements for nonqualified aliens. However, local government agencies must conduct status verification when serving nonqualified aliens.

U. Multi-Family Eligibility

A multifamily building may be weatherized if two-thirds of the units are eligible. Certain multifamily buildings with significant energy efficiency improvements or leverage resources require only one-half of the units to be eligible. A building containing two or four units may be weatherized if one-half of the units are eligible. A nonqualified alien could be the recipient of weatherization services as part of the two-thirds or one-half rule.

V. Recovered Materials

Each subgrantee has a policy and procedure for using insulation composed of the highest percentage of recovered materials practical.

W. Rental Requirements

There are no changes in rental procedures.

X. Income Eligibility

The state will use 200 percent of poverty as the income eligibility level.

Y. Fuel Switching

DOE does not permit the general practice of fuel switching when replacing furnace and appliances.

Z. Protection of Whistleblowers

Any employee of any non-Federal employer receiving covered funds under the Recovery Act may not be discharged, demoted, or otherwise discriminated against as a reprisal for disclosing information the employee believes is evidence of: gross management of an agency contract or grant relating to covered funds; a gross waste of covered funds, a substantial and specific danger to public health or safety related to the implementation or use of covered funds; an abuse of authority related to the implementation or use of covered funds; or a violation of law, rule, or regulation related to an agency contract (including the competition for or negotiation of a contract) or grant, awarded or issued relating to recovered funds.

AA. False Claims Act

The state and subgrantees will promptly refer to the DOE or other appropriate Inspector General any credible evidence that a principle, employee, agency, contractor, subcontractor or other person has submitted a false claim under the False Claims Act or has committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity or similar misconduct involving those funds.

BB. Information in Supporting of Recovery Act Reporting

The state or subgrantees may be required to submit backup documentation for expenditures of funds under the Recovery Act including such items as timecards and invoices. The state or subgrantees shall provide copies of backup documentation at the request of the Contracting Officer or designee.

CC. Access to Records

Any representative of an appropriate inspector general appointed under section 3 or 8G of the Inspector General Act of 1988 (5 U. S. C. App.) or of the Comptroller General is authorized to (1) examine any records of the state, any of its contractors or subgrantees, or any State or local agency administering such

contract that pertain to, and involve transactions in relation to, the subcontract, grant, or subgrant; and (2) interview any officer or employee of the contractor, grantee, or subgrantee, or agency regarding such transactions.

Energy Savings

An estimate of the amount of energy to be conserved.

The fuel analysis is representative of the typical unit weatherized by each of the subgrantees. The analysis provides the data regarding energy conservation.

TRAINING AND TECHNICAL
ASSISTANCE ACTIVITIES
AND
MONITORING ACTIVITIES

TRAINING AND TECHNICAL ASSISTANCE

Milestones and training guidance is based on information received from evaluation of each subgrantees submittal

GRANT GUIDANCE

May 22, 2009

State weatherization manager and training coordinator will provide guidance based on ARRA Program regulations and program policies.

WAP ANNUAL TRAINING CONFERENCE

AUGUST 13-14, 2009

Various new subject matter, as well as updated information will be taught that are directly related to new requirements from DOE (i.e. regional, national conferences & other related sources).

LEAD BASED PAINT TRAINING

September 30, 2009

Guidance will be provided regarding treatment of pre-1978 homes that may have lead hazards and various other subject matter pertaining to EPA Lead regulations.

WAP SKILLS TRAINING

October 1 & 2, 2009

Weatherization personnel come together in state wide hands on training. This allows everyone to participate in a wide array of skilled demonstrations needed to professionally show "how to" perform the different tasks needed on each unit. In addition, two or three units will be selected in advance to perform weatherization installed activities.

Monitoring Activities

1. An analysis of the existence and effectiveness of any weatherization project being carried out by a subgrantee.

The Arkansas Weatherization Office analyzes the effectiveness of the State's Weatherization projects through its ongoing monitoring activities.

The monitoring activities of the Arkansas Weatherization Office serve three principle purposes:

- To disclose areas of non-compliance with contract and programmatic regulations.
- To identify technical assistance needs among program personnel, provide training to correct deficiencies, identify and resolve questions about program operations.
- To assure quality workmanship on homes weatherized.

Monthly monitoring activities occur in OCS as staff reviews the monthly reports from the subgrantees. The monitoring lends itself to in-office or desktop review since the fiscal records are readily accessible and financial staff is usually available for consultation.

Before making a monitoring visit, the monitor reviews all reports and requests, and pertinent correspondence from the agency to be visited to get an idea of the agency's performance over a period of several months. The audit for the last contract period and the monitoring reports made previously are also reviewed. Year-to-date statistical data is compiled monthly.

The monitor also reviews the production schedule for each agency based on the Arkansas weatherization allocation formula and compares it to projections and expenditures.

Each subgrantee is monitored a minimum of two times annually, but monitoring may be required more often if requested by the agency or is deemed necessary by the State Weatherization Office.

Monitoring and evaluation activities include:

- a. Review of the office procedures to determine if all systems are functioning according to written procedures,
- b. Review the client intake procedures, i.e., income guidelines and point system,
- c. Review the client files for accuracy and completeness,

- d. Review staffing levels and identify labor problems,
- e. Review material management controls, check warehouse inventory/tools and equipment,
- f. Review Financial Management System,
- g. Review safety issues,
- h. Make at least one home inspection of completions and/or units in progress per crew, and
- i. Hold an exit interview with the Program Director and Executive Director, and plan follow-up visits. Following the visit, the monitor files a written report with the Arkansas Weatherization Director and summarizes the findings along with suggested corrective action and comments.
 - 1) Two full-time monitors will be involved in regularly monitoring the program. The services of the Division of Finance will be utilized on an as needed basis.
 - 2) Each subgrantee will be monitored a minimum of two times during the year. At least ten percent of the homes weatherized will be inspected by state staff to insure quality control and accountability.
 - 3) Monthly reports, statistical review and monitoring and evaluation instruments are part of the weatherization manual.
 - 4) In addition to the system for resolving problems described, reference the T/TA portion of the state plan which will detail training designed to eliminate problems.
 - 5) Subgrantee performance is evaluated through the monitoring process. Subgrantee performance standards are contained in the manual and the subgrantees are evaluated as to whether they are meeting those standards. Two substandard performance ratings by a subgrantee could result in a public hearing process to determine the adequacy of that subgrantee.

MONITORINGMilestones

1. Fifteen subgrantees will be monitored at least twice during the program year.
2. At least 10% of the units weatherized will be inspected during the program year.
3. At least 10% of the client files will be inspected for compliance with state and federal regulations.
4. Fiscal and production desk reviews will be conducted monthly.

Leveraging Activities - Other Sources

None.

DOE Funded Leveraging

The state will leverage utility funds and other non-federal funds where possible. However, DOE funds will not be expended in this process.

Subgrantees will administer the Arkansas Weatherization Program, which is contracted through the largest Community Action Agency in the state. The program will allow subgrantees to use DOE vehicles/equipment for use in the Arkansas Weatherization Program for non-DOE houses. Subgrantees will use a cost allocation plan to determine the amount of funds to be reimbursed by the DOE program for use of its vehicles/equipment.

Arkansas Policy Advisory Council Meetings

The PAC will meet on April 27, 2009 for the purpose of holding a public hearing on the 2009-2012 American Recovery and Reinvestment Act State Weatherization Plan. Other items on the agenda will include the approval of minutes and planned 2009 training.

The PAC members are involved in weatherization activities such as training and Weatherization day activities and leveraging funds. Entergy is represented on the PAC and funds some weatherization activities of subgrantees each year. The State Energy Office is represented on the PAC and provides client education material for weatherization clients. Rural Development is represented on the PAC and provides funding to some weatherization subgrantees for housing rehabilitation.

Arkansas Department of Human Services (Hereinafter called "the Applicant") HEREBY AGREES to comply with Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352), Section 16 of the Federal Energy Administration Act of 1974 (Pub. L. 93-275), Section 401 of the Energy Reorganization Act of 1974 (Pub. L. 93-438), Title IX of the Education Amendments of 1972, as amended, (Pub. L. 92-318, Pub. L. 93-568, and Pub. L. 94-482), Section 504 of the Rehabilitation Act of 1973 (Pub. L. 93-112), the Age Discrimination Act of 1977 (Pub. L. 94-135), Title VIII of the Civil Rights Act of 1968 (Pub. L. 90-284), the Department of Energy Organization Act of 1977 (Pub. L. 95-91), the Energy Conservation and Production Act of 1976, as amended, (Pub. L. 94-385) and Title 10, Code of Federal Regulations, Part 1040. In accordance with the above laws and regulations issued pursuant thereto, the Applicant agrees to assure that no person in the United States shall, on the ground of race, color, national origin, sex, age, or disability, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity in which the Applicant receives Federal assistance from the Department of Energy.

Applicability and Period of Obligation

In the case of any service, financial aid, covered employment, equipment, property, or structure provided, leased, or improved with Federal assistance extended to the Applicant by the Department of Energy, this assurance obligates the Applicant for the period during which Federal assistance is extended. In the case of any transfer of such service, financial aid, equipment, property, or structure, this assurance obligates the transferee for the period during which Federal assistance is extended. If any personal property is so provided, this assurance obligates the Applicant for the period during which it retains ownership or possession of the property. In all other cases, this assurance obligates the Applicant for the period during which the Federal assistance is extended to the Applicant by the Department of Energy.

Employment Practices

Where a primary objective of the Federal assistance is to provide employment or where the Applicant's employment practices affect the delivery of services in programs or activities resulting from Federal assistance extended by the Department, the Applicant agrees not to - discriminate on the ground of race, color, national origin, sex, age, or disability, in its employment practices. Such employment practices may include, but are not limited to, recruitment, advertising, hiring, layoff or termination, promotion, demotion, transfer, rates of pay, training and participation in upward mobility programs; or other forms of compensation and use of facilities.

Subrecipient Assurance

The Applicant shall require any individual, organization, or other entity with whom it subcontracts, subgrants, or subleases for the purpose of providing any service, financial aid, equipment, property, or structure to comply with laws and regulations cited above. To this end, the subrecipient shall be required to sign a written assurance form; however, the obligation of both recipient and subrecipient to ensure compliance is not relieved by the collection or submission of written assurance forms.

Data Collection and Access to Records

The Applicant agrees to compile and maintain information pertaining to programs or activities developed as a result of the Applicant's receipt of Federal assistance from the Department of Energy. Such information shall include, but is not limited to the following: (1) the manner in which services are or will be provided and related data necessary for determining whether any persons are or will be denied such services on the basis of prohibited discrimination; (2) the population eligible to be served by race, color, national origin, sex, and disability; (3) data regarding covered employment including use or planned use of bilingual public contact employees serving beneficiaries of the program where necessary to permit effective participation by beneficiaries unable to speak or understand English; (4) the location of existing or proposed facilities connected with the program and related information adequate for determining whether the location has or will have the effect of unnecessarily denying access to any person on the basis of prohibited discrimination; (5) the present or proposed membership by race, color, national origin, sex, age and disability in any planning or advisory body which is an integral part of the program; and (6) any additional written data determined by the Department of Energy to be relevant to the obligation to assure compliance by recipients with laws cited in the first paragraph of this assurance.

The Applicant agrees to submit requested data to the Department of Energy regarding programs and activities developed by the Applicant from the use of Federal assistance funds extended by the Department of Energy. Facilities of the Applicant (including the physical plants, buildings, or other structures) and all records, books, accounts, and other sources of information pertinent to the Applicant's compliance with the civil rights laws shall be made available for inspection during normal business hours of request of an officer or employee of the Department of Energy specifically authorized to make such inspections. Instructions in this regard will be provided by the Director, Office of Civil Rights, U.S. Department of Energy.

This assurance is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts (excluding procurement contracts), property, discounts or other Federal assistance extended after the date hereof, to the Applicants by the Department of Energy, including installment payments on account after such data of application for Federal assistance which are approved before such date. The Applicant recognizes and agrees that such Federal assistance will be extended in reliance upon the representations and agreements made in this assurance, and that the United States shall have the right to seek judicial enforcement of this assurance. This assurance is binding on the Applicant, the successors, transferees, and assignees, as well as the person(s) whose signatures appear below and who are authorized to sign this assurance on behalf of the Applicant.

Applicant Certification

The Applicant certifies that it has complied, or that, within 90 days of the date of the grant, it will comply with all applicable requirements of 10 C.F.R. § 1040.5 (a copy will be furnished to the Applicant upon written request to DOE).
